INVITATION

Dear Friends,

Urological cancers as a whole comprise a small percentage of all cancer patients in India. However, these account for almost 30% of work, in large tertiary care urology centres. These cancers require specialised care for the optimum outcome of these patients. Hence, it is important for Urologists to know the newer developments and controversies in the management of urological cancers.

Department of Urology and Renal Transplant, Max Super Speciality Hospital, Saket, New Delhi is a center of excellence for Urological Surgeries, Uro-oncology and Renal Transplant. Our focus is the advancement of knowledge through continuous education.

We cordially invite you to an academic feast of CME & Video Workshop on Uro-oncology from 14th - 16th September 2017. A galaxy of both international and national faculty will be speaking on various controversies in the management of urological cancers along with interesting case presentations to enlighten us with their experiences. The highlight will be un-edited videos of surgeries. The focus will be on various tips and tricks of intra-operative management of difficult situations and complications.

We will also be discussing European and American guidelines in context to the Indian scenario.

To make this event a success, we welcome your active participation and support.

Dr. Anant Kumar
(Organising Chairman)
